

I am a subscriber of Satellite Radio and have recently heard the FCC wants to stop XM Radio from broadcasting weater and traffic reports. I travel all over the state with my job. Since I am a subscriber and paying customer of XM Radio I should have the right to be updated to traffic and weather conditions through out the City of Phoenix and the state of AZ on a forum that I choose and pay for.

I urge you to reject NAB Petition 04-160.

Sincerely,  
Wayne Brown
